Wedding Song

Yeah Yeah Yeahs

With every breath I breathe I'm making history With your name on my lips The ages fall to bits

In flames I sleep soundly With angels around me I lay at your feet You're the breath that I breathe

Some kind of violent bliss Led me to love like this One thousand deaths my dear I'm dying without you here

In flames I sleep soundly With angels around me I lay at your feet You're the breath that I breathe

You're the breath that I breathe The breath that I breathe The breath that I breathe You're the breath that I breathe
