

Beautiful

Years & Years

I've been thinking about me and you
And all the ways you've saved me
After all the things that we've been through
I still cannot explain it
Through all of the sleepless nights
You gave me the wings that I needed
When you talk to me, it's like poetry
I can feel your love in every moment

I see you standing in the light of the hallway
I see my reflection in your eyes
The journey we face is illuminated
With you right beside me, my guiding light
Hand in hand
You're all I have
Into the future, into the night
So beautiful

Temptation was a friend of mine
The only life I knew
Then you talk to me it's like poetry
I can feel your love in every moment

I see you standing in the light of the hallway
I see my reflection in your eyes
The journey we face is illuminated
With you right beside me, my guiding light
Hand in hand
You're all I have
Into the future, into the night
So beautiful

Tonight, tonight
Tonight, tonight
Tonight, tonight
So beautiful
Tonight, tonight
Tonight, tonight
Tonight, tonight
So beautiful

Hand in hand
You're all I have
Into the future, into the night
So beautiful
