

# DNA

## Years & Years

What I say about dreams  
That my father believe  
Aberrations can steal your child away  
And the summer won't end  
Young enough to forget  
Did the big boys beat it out from you?

And you're reaching for your brother's arms  
Your two-toned flash of the alarm  
And I choke, it's too close  
And I'm standing on that higher stair  
I think I'll run away from here  
Yes, I'll go  
It's too close

'Cause I'm gonna show you that history can change  
The bad times in my youth  
The cut on my DNA  
Yes, I'm gonna pull through  
My story is not made  
The past is a false truth  
I'll break with my DNA

Well, it's time the truth starts  
Medicating your shock  
Did it always seem so bad for you?  
And our personal crime  
We both know that you'll find  
Blood smudged thicker than you ever knew

And you're reaching for your brother's arms  
Your two-toned flash of the alarm  
And I choke, it's too close

'Cause I'm gonna show you that history can change  
The bad times in my youth  
The cut on my DNA  
Yes, I'm gonna pull through  
My story is not made  
The past is a false truth  
I'll break with my DNA

Ooh-ooh-ooh-ooh  
Yeah, yeah  
Ooh-ooh-ooh-ooh  
Yeah, yeah  
Ooh-ooh-ooh-ooh  
Yeah, yeah  
Ooh-ooh-ooh-ooh  
Yeah, yeah

And the moment altered everything  
It changed your life  
Sweeping over me in the bitter morning light  
And the moment altered everything  
It changed your life  
Sweeping over me in the bitter morning light

'Cause I'm gonna show you that history can change  
The bad times in my youth  
The cut on my DNA  
Yes, I'm gonna pull through  
My story is not made  
The past is a false truth  
I'll break with my DNA

Ooh-ooh-ooh-ooh  
Yeah, yeah  
Ooh-ooh-ooh-ooh  
Yeah, yeah  
Ooh-ooh-ooh-ooh  
Yeah, yeah  
Ooh-ooh-ooh-ooh  
Yeah, yeah
