

## Not Tha Same

Yeat

My money strong, your shit weak, yeah  
Different colored diamonds on the beach, yeah  
Your girl pulled up on me, she's a creature, wanna eat me  
Money coming in, shit got easy  
No, I can't decide with the Percs or the boot up  
I'm high with the gods, bitch, I just chill with Buddha  
Heard they bitin' swag and we call them barracudas  
I said fuck the Masi', baby, come hop in this Tonka

I heard that you want this lifestyle but do it want you?  
This AP I got iced out, cost me a mill', yeah, like one or two  
Always gon' do what I want, you couldn't do that if you wanted to  
What the hell you really doin'? What you runnin' to?  
Watch what you say or what you do or what you get into  
I be high as hell but I be on my business too  
Baby said I'm fly, yeah, pulled up in a business suit  
Please don't waste my time or I'ma block you and forget it's yo  
u  
Yeah, after all the shit I did, you still just did it too  
Is it the drugs or it's the money, what got into you?  
What the hell you thinkin'? What you thinkin'? You not bulletproof  
All it takes is just a second, just see what this bullet do  
They said the wave wouldn't make it, bitch, I'm living proof  
I had busted lil' shawty down inside the living room  
She said she fell in love with me, just love my pickle too  
You really be askin' for the world, then show it what you do  
It's not that complicated, yeah  
Just do what you do, don't need to complicate it  
I was down on my own, I ain't hesitated  
But now that I got rich, I wish I never made it

My money strong, your shit weak, yeah  
Different colored diamonds on the beach, yeah  
Your girl pulled up on me, she's a creature, wanna eat me  
Money coming in, shit got easy  
No, I can't decide with the Percs or the boot up  
I'm high with the gods, bitch, I just chill with Buddha
