

Take Off

Yeat

Woah
Love, drugs, girls
Plug, try
So much drugs in this world
Beside the biddie we giving our touch
In a brand new world, got drugged out today
I'm 'bout to go fuck this shit up
Yeah, it's all been love (It's all been love)
It might be the drugs (Might be the drugs, oh shit)
No I don't need no one (I don't need no one cause I'm too lit)
But Oxy make up my mind (Up my mind)

I know it's bad, I know you sad
No I'm not sad, just fuck what we had
[?], copy the swag (Yuh)
She wanna know where I'm at (Yah), I know that she mad (Yah)
We love when we make, I'm sorry but I'm 'bout to take off
