

Went Wrong

Yeat

Yeah, I'm in love
With what?
With everything

Oh (Where), where did we go wrong?
Where did we? (Where, where, where, where?)
(What doin'? Yeah)
Girl, I knew it all along, oh, ooh (Yeah, ooh)

Oh, we was waitin' (Oh, oh)
To see where we went wrong
Watch us fail
Like we didn't exist (Heartbeat all gone, my heartbeat burnin' down)
Like we didn't exist (My heartbeat burnin' down, my heartbeat burnin' down)
Like we didn't ex- ah (My-)

Miss me with all the bullshit, with all the bullshit
Yeah, you could miss me
I've been outside the city, with bad bitches toppin' me
You think inside of frame, I live outside the picture
I gotta decide what I needed when I'm with her
I got a new girl every time on the road, I've been here
And I need to do it for myself, oh, why I've been here
All this money cuffin' me, baby, until you get here with me
Look, do you feel it?
Rainin' down on our bodies, do you feel it?
It was bad when we started, did you feel it?
I was outside, boots was hotter than a skillet
I'll slice a bad bitch, I was sorry for you
I turned this bad bitch to a fuckin' fillet

Oh, we was waitin' (Oh, oh)
To see where we went wrong
Watch us fail
Like we didn't exist (Heartbeat all gone, my heartbeat burnin' down)
Like we didn't exist (My heartbeat burnin' down, my heartbeat burnin' down)
Like we didn't ex- (My-)

How can I see sound and feel these noises?
Next time you see me, I have more choices
Who came to my house and just destroyed it?
Came inside and ripped up all your posters
And this summer was one of the coldest
Never get to see you in the mornin'
You don't see it comin', so you're goin'
Goin', go, goin', goin'

Oh, we was waitin' (Oh, oh)
To see where we went wrong
Watch us fail
Like we didn't exist (Heartbeat all gone, my heartbeat burnin' down)
Like we didn't exist (My heartbeat burnin' down, my heartbeat burnin' down)
Like we didn't ex- (My-)

I think I need a witness (Oh)
To see where we would miss
I need it, for God to show me where it is not needed

You to come back like this and I need it
For you to respect-
I'm holdin' on so soft
Get it out, get it out
