

# Paranoia Purple

Yebba

Tell me  
Will you leave me lonely  
On and on and on I know you told me  
The most important reason why  
You'll color in as many lines as I need you  
Tell me  
When we have no money  
And the siren starts their callin'  
You say  
Slow down  
Slow down, come on  
Slow down

And this paranoia purple turns to green  
And nothing is as simple as it seems  
What's happening to me?

Say now  
When my life is over  
Will you find somebody good enough to hold you  
Someone like my Abigail  
To tell you all is good and well like me now  
Say now  
I feel my colors show how  
I think it's almost time for me to go now  
Go now  
Go now

But this paranoia purple turns to grey  
And all that's good and well  
It melts away  
Until we meet again

How could I for  
Still can't figure it out  
Still can't figure it out

Ooh, how could I forget about you now  
Tell me how could I forget about you now  
Now  
Now  
How could I yeah for-forgot about you
