

Armageddon

Yelawolf

All my life I've been fighting to be a legend
But like I tell my family, if you can't fight to be a legend for yourself
Then I can't fight for you

If I said it out loud, would you tell me to leave
Or would you be afraid of the things I've done?
If I could turn it around, be able to sleep
I'd cuddle with you girl instead of my guns
They know me all over town, I'm a legend
Said it's on if you want it right now
And I'll be here 'til the end, Armageddon
Said it's on if you want it right now
I'll be right here 'til the end

Let me howl at the light of the moon
For the bass in the back of the trunk in the box and the slums
To my folks in Hollywood too
Yeah, I've been around a few, with a couple of country goons
Still roll around with a pump in a duffel bag
Now I got a duffel bag full of jewels
Yeah, like a pirate, I've been
Sailing the seas, yeah, the streets
Coast to coast, over the creek
Over the ocean, in bucket seats
All because I fuck up beats
Why all of my fans come fuck with me
Family's eating, morning to evening
Pouring up whiskey, all for free, beast

Born an addict, I gotta have it
Get rich or die trying, I'm alive and steady stackin'
Put the vintage leather jackets
Up in the new house I found
Am I proud? Of course I'm proud, but

If I said it out loud, would you tell me to leave
Or would you be afraid of the things I've done?
If I could turn it around, be able to sleep
I'd cuddle with you girl instead of my guns
They know me all over town, I'm a legend
Said it's on if you want it right now
And I'll be here 'til the end, Armageddon
Said it's on if you want it right now
I'll be right here 'til the end

I ain't taking shit from these suckers, no, I'm dropping that veteran rap
I ain't pulling up with these motherfuckers, you know I'm better than that
I been on their neck and been on their necks since Trunk Muzik
"Love Story", "War Story" up next, how we do it

Born an addict, I gotta have it
Get rich or die trying, I'm alive and steady stackin'
Put the vintage leather jackets
Up in the new house I found
Am I proud? Of course I'm proud, but

If I said it out loud, would you tell me to leave

Or would you be afraid of the things I've done?
If I could turn it around, be able to sleep
I'd cuddle with you girl instead of my guns
They know me all over town, I'm a legend
Said it's on if you want it right now
And I'll be here 'til the end, Armageddon
Said it's on if you want it right now
I'll be right here 'til the end
I'll be right here 'til the end
I'll be right here 'til the end
