

# Falling

Yelawolf

You got me wishing on a star  
Stumbled out the bar  
Faded  
You got me caught up in a rush  
Tryna slow the fuck down  
It's like everything you said  
Playing in my head  
Crazy  
Swear I wish I would've known  
Everything I know now

I just keep falling  
Over and over again  
Girl you  
Know I don't want it to end  
Not today  
I just keep falling  
Over and over again  
You been  
There when I needed a friend  
So I stay

I need you to stand up  
I need you to stand up for me  
For both of us, yea

I been walking a country mile  
Chasing the back rooms of this lonely small town  
Thinking about when it was you and me  
Had kids, 1, 2, and 3  
Didn't have no job  
That shit damn near just ruined me  
No trade no school degree  
Jump suit in a ditch I was  
No tie no suit on me  
Third shift I was picking up  
Ain't nothing new to me

Baby I was 'bout it, 'bout it  
Held the family down  
In an apartment crowded  
Daddy was always rowdy  
Smoking and drinking a lot  
Not enough money son  
Just all the beans in the pot  
Bet that on Christmas, fuck!  
Jump in a working truck  
One day I'm 'a be a rapper, uh!  
Wish you the best of luck

Beer in a Dixie cup  
On the front porch, I'm dreaming  
Ten years down the road  
A millionaire from streaming  
But I lost time, I know  
Gotta do another show  
Gone 'til November, yea

Baby I gotta go... stand for me

You got me wishing on a star  
Stumbled out the bar  
Faded  
You got me Caught up in a rush  
Tryna slow the fuck down  
It's like everything you said  
Playing in my head  
Crazy  
Swear I wish I would've known  
Everything I know now

I just keep falling  
Over and over again  
Girl you  
Know I don't want it to end  
Not today  
I just keep falling  
Over and over again  
You been
