

# Magic Man

Yelawolf

The magic is all around  
What goes up don't always come back down  
Look at what I found  
That's the sound, that's the man, Magic Man

Magic Man walk in the town  
You know how it's going down  
Dressed to kill, the message is clear  
I'm on the scene, I'm dope, I'm here  
Flashy cars and shiny things disappear under the sheets  
Now that's magic, that's fantastic, what is it you need? I got a mattress  
Come to your room like David Blaine up the wall with no strings  
I'm the key to the party, I'm the beast to the heart  
Check to all the women, get naughty  
95 degrees inside but I'm a breeze, relieve the vibe  
Abracadabra, what are you after?  
I got what you need inside this little bag (baggie, hehe)

The magic is all around  
What goes up don't always come back down  
Look at what I found  
That's the sound, that's the man, Magic Man

It's love-olution, is it blind?  
'Cause I see yours and I see mine  
You don't have to polish a dress and a black robe  
To be my assistant on the road  
Cut you in half in my box  
Chevy, back seat, in my socks  
Woman in glass, fogged up windows  
Shock support pro, I want more though  
Pick one card from my full deck  
That's a king, show me respect  
I'm the key to the party, I'm the beast to the heart  
Check to all the women, get naughty  
I make bottles disappear  
Make your girlfriend reappear  
Abracadabra, what are you after?  
I got what you need inside this little bag (baggie, hey)

The magic is all around  
What goes up don't always come back down  
Look at what I found  
That's the sound, that's the man, Magic Man

Buried treasure, pot of gold  
Fairy tales and rainbows  
That ain't real, that ain't me  
But it could be with LSD  
In the night we play around  
Smokin' mirrors with the sounds  
Celebrity life is a trick that I'm workin' on  
And I show it to you baby right after I get on  
Watch the pinwheel spin and move  
Watch my watch and I watch you  
I'm the key to the party, I'm the beast to the heart  
Check to all the women, get naughty

What you relieve is up to me  
Welcome to my reality  
Abracadabra, what are you after?  
I got what you need inside this little bag (baggie)

Whatever bring you home, hehe  
Come on home, girl  
Come on home  
"Come on home, girl", he said with a smile

The magic is all around  
What goes up don't always come back down  
Look at what I found  
That's the sound, that's the man, Magic Man
