She likes those boys in the band
She says that I'm her all-time favorite
When I make a move to her room, it's the right time
She's never hard to please
Oh girl
She caught that Uber to the hotel
We know that she don't wanna go home
She brought friends up in that SUV to have fun
But she's never far from me
Ooh girl
It's some, it's some, it's some in this house
They gone, they gone (uhh), they gone spill shit on the couch
They gone jump all in the bed like fucking kid's and get kicked out
Some of them bitches super tripping but I won't stop them
Cause I'm out, on that porch smoking that smoke
Drinking that drink and talking bout'
Flipping that bread with that plug
While she cuffin with the powd
Come get this when she's a loosie goose
That creek waters no drought
Talk about wet yeah she's wet damn they drooling at the mouth
Yelawolf, Yelawolf, Rock and Roll yeah that coke bag is poking out
Flipping that gram, I trip out
She said tell me bout' the south
Girl look down, that is how
Throw that straw up in your snout
That mean you just cross the county line
In 20, I'm pulling out
I'm bout' to
