

Thrown

Yella Beezy

(Lil Shun, sauce it up)

When I step out, be in this club, tryna feel all on your butt
Let me dig all in your guts, girl, I'm tryna see what's up
I ain't finna play with you
So baby girl, don't play with me
Better ask about me, I swear to God it's what you better do
I promise I get throwed
I promise I get throwed
Girl, take off your clothes
I ride or die for my bros
We ball out of control
The afterparty or the show
If you sliding out, let me know
Won't you drop it down real slow
I promise I get throwed
I promise I get throwed
I promise I get throwed
I promise I get throwed
Promise I get throwed
I ain't finna play with you, so baby girl, don't play with me
Better ask about me, I swear to God it's what you better do
I promise I get...

Hey, baby girl, tryna make you cum
Hit you from the back, I'ma make you sprung
Try get real deep, I'ma make you numb
Finna bust one, baby, stick out your tongue
King size dick all up in your lungs
Do the cowgirl, then I'ma beat your front
Skeet it all on your face, baby, meet my son
Fuck a Cliff nigga, baby, I'ma freak you dumb
Comment every day sayin' she want some
Hate her boring ass ex, say she want fun
Stuck in a dark place, say she want sun
Say if I pin her down then she won't run
I'ma kill that pussy, say she won't mourn
Fuck three times but she want more
Real life freak, yeah, she go hard
True story, lil' baby say she want war
No basic shit, she want porn
Later, ate her, baby, come eat my sword
Fuck that dumb shit, baby, freak me hard
Put that lil' bitch down, lil' ting ting snoring
Baby wanna freak somethin', then ring my horn
All the freaky ass shit, girl, ring my alarm
Real ass order, baby, been through the storm
All that playin' ass shit, you should've been in my arms

Promise that you'll be a savage

I just might let you have one night
If we fuckin', might change your life
All this pressure gon' bust your pipe
You gon' wanna make me your wife

And you can get throwed but you should know
