

After It All

Yellow Claw

I'd walk through all the fire for you
Our love still here after I'm gone
You pull me close enough to
Hear a whisper
Say nothin' at all

It's times like these at least for me
You make things better after all
With times like these at least we'll be
Our love still here after it all

After it all
After it all
After it all
After it all

After it all
After it all
After it all
After it all

(Yellow motherfuckin' Claw!)

I'd walk through all the fire for you
Our love still here after I'm gone
You pull me close enough to
Hear a whisper
Say nothin' at all

It's times like these at least for me
You make things better after all
With times like these at least we'll be
Our love still here after it all

After it all
After it all
After it all
After it all

(Yellow motherfuckin' Claw!)

After it all
After it all
After it all
After it all

After it all
After it all
After it all
After it all
