

Cold Like Snow

Yellow Claw

I've been warned bout you
And all the things you do
And what you might just say
It's all for fun and play

I kept running for cover
Tried to hide in the gutter
You found me anyway
Now I try to recover
Got hit by another

Don't worry bout me
Been here before, been lost in the middle
It seems to me
You should take a real good look in the mirror

You're so cold
Like snow
Waiting on the sun to show
But your walls
Won't fall
Someday I'll have to let it go

Ain't it funny how
You still try to mess around
With my brain burnt out
All my tears wiped dry

Call me numb or depleted
But I'm no longer bleeding over you
Call me over sedated
But I'm no longer tainted by the things you do

You're so cold
Like snow
Waiting on the sun to show
But your walls
Won't fall
Someday I'll have to let it go

You're so cold
Like snow
Waiting on the sun to show
But your walls
Won't fall
Someday I'll have to let it go

You're so cold
Like snow
Waiting on the sun to show
But your walls
Won't fall
Someday I'll have to let it go
