

## Down on Love

Yellow Claw

I wanna lose my hands in your curls  
I wanna show you it's more than words  
I gotta take it slow with your curse  
I know it's more than love you deserve

Can't you tell that I'm gon' treat you right?  
I see it in your eyes that if my words desire  
And you forget how my many nights tried  
How many times you tried  
This might just be your night

Hold me down, down, down, down, down  
Hold me down on love, hold me down on love  
I hold you down, down, down, down  
If you stay around my love, stay around my love

I wanna show you how good it feels  
That heaven knows, someone who treats you real  
Caught up in the motion, I'm not made of steel  
Baby, if you're hopeless I can help you heal

Can't you tell that I'm gon' treat you right?  
I see it in your eyes that if my words desire  
And you forget how my many nights tried  
How many times you tried  
This might just be your night

Hold me down, down, down, down, down  
Hold me down on love, hold me down on love  
I hold you down, down, down, down  
If you stay around my love, stay around my love

Hold me down, hold me down, hold me down  
I hold you down, down, down, down

Hold me down, down, down, down, down  
Hold me down on love, hold me down on love  
I hold you down, down, down, down  
If you stay around my love, stay around my love
