

Forgetting To Remember

Yellow Claw

I've been trying to think about you
But I don't remember much
We made all these promises
I remember some but not enough
So I listen to all of the songs
That we used to dance to all night long
And I go back to places we've gone
Sometimes you take my memories
'Cause I lost our history

So I tried to go back
'Cause I'm forgetting to remember
Every word, every step
We always said we'd take together
Oh, no
Here whenever feel like this to me
Feel like this to you, only used to think of me
That's the only way I know it through
'Cause I'm forgetting to remember you

I heard you're still holding on
Still why I left you, it's still not moving on
I wish I could say the same
'Cause forgetting you feels wrong
Because you're solely slipped away
Bet in your night I'll stay

So I tried to go back
'Cause I'm forgetting to remember
Every word, every step
We always said we'd take together
Oh, no
Here whenever feel like this to me
Feel like this to you, only used to think of me
That's the only way I know it through
'Cause I'm forgetting to remember you
