

# Hush

Yellow Claw

Ever since you said my name  
I will never be the same  
Can't believe what I became  
When you got into my brain  
I know I should stay away, to the way you playin', yeah  
But every night the lines getting blurred  
And I fall for your words

So let's not talk too much  
Please don't call this love  
I get my hopes up for you

Oh, you never mean the things you say  
Oh, you never mean the things you say  
So hush, don't you bother (Hush, hush, hush, hush)  
Go mess up another (Hush, hush, hush, hush)  
Oh, you never mean the things you say  
Oh, you never mean the things you say  
So hush, don't you bother (Hush, hush, hush, hush)  
Go mess up another (Hush, hush, hush, hush)

Maybe I will never learn  
Maybe I will never change  
(No, no, no, no, no)  
'Cause I hate the way it burns  
But I love the way you taste, oh  
It's like everything you do  
You've been mappin' out the moves  
And every night the lines getting blurred  
I won't fall for your words, no

So let's not talk too much  
Please don't call this love  
I get my hopes up for you

Oh, you never mean the things you say  
Oh, you never mean the things you say  
So hush, don't you bother (Hush, hush, hush, hush)  
Go mess up another (Hush, hush, hush, hush)  
Oh, you never mean the things you say  
Oh, you never mean the things you say  
So hush, don't you bother (Hush, hush, hush, hush)  
Go mess up another (Hush, hush, hush, hush)

When it's 4 in the morning  
You don't mean it, do you?  
When you're bored and lonely  
You don't mean it, do you?  
When you drunk and sorry  
You don't mean it, do you?  
When you say you want me  
You don't mean it, do you?  
When it's 4 in the morning  
You don't need me, do you?  
When you're bored and lonely  
You don't need me, do you?  
When you drunk and sorry

You don't mean it, do you?  
When you say you want me  
You don't mean it, do you?
