

# Light Years

Yellow Claw

Electric nights, like fireflies  
Time is frozen  
Velvet skies, like lightning vibes  
We be floating

'Cause when you touch me  
I swear I can't speak  
I'm out of body  
There ain't no coming back  
And when you touch me  
It's what my heart needs  
And we can run free  
I know that

We can be light years away  
I know I can find you  
We can be light years away  
I know we can shine through

Anywhere  
Anywhere  
Anywhere  
I know I can find you  
Anywhere  
Anywhere  
Anywhere  
I know we can shine through

(Yellow motherfucking Claw)

Worlds apart, we're shooting stars  
Skies are open  
A ray of sparks, our beating hearts  
Throw us in motion

'Cause when you touch me  
I swear I can't speak  
I'm out of body  
There ain't no coming back  
And when you touch me  
It's what my heart needs  
And we can run free  
I know that

We can be light years away  
I know I can find you  
We can be light years away  
I know we can shine through

Anywhere  
Anywhere  
Anywhere  
I know I can find you  
Anywhere  
Anywhere  
Anywhere  
I know we can shine through

(Yellow motherfucking Claw)
