

Try So Hard

Yellow Claw

It was never about how to move
'Cause we made it and we made it good, yeah
There were times where I felt so alive
But that was a lie, a lie, a lie

So don't even think
Took off of me tonight
Don't even try
'Cause she can't make me forget it

I remember when I did and after tried so hard
And every other way could turn into a fight somehow
Do you do that to make me mad?
Just want me to react
But I remember when I did and after tried so hard
But you don't even think
I do

We've been lost when we found we ain't one
Like I figured it out altogether
If the last thing I want is goodbye
Then I shouldn't even have to try at all

So don't even think
Took off of me tonight
Don't even try
'Cause she can't make me forget it

I remember when I did and after tried so hard
And every other way could turn into a fight somehow
Do you do that to make me mad?
Just want me to react
But I remember when I did and after tried so hard
But you don't even think
