

Heavier

Yellow House

I'll sip your hemlock
Drip my fingers down your back
Lovers tied up, tethered
Kiss me through the fetters

Ooh you're bending and breaking
Through the dim light
Take me on again
Ooh pristine, deftly moving
No rules to abide
Nothing left to hide

Ooh yeah you're taken
But you're take-take-taken for granted (hardly wanted)
Ooh yeah you'd break him
Yeah you'd break-break-break him for nothing (for nothing)
Ooh you're forsaken
You're left ache-ache-aching for loving (for loving)
Ooh yeah you're taken
But you're take-take-taken for granted (hardly wanted)

I'll find peace in your nightshade
And the warmth inside your cool blade
Lead you down
A labyrinth of desire

Ooh you're bending and breaking
Through the dim light
Take me on again
Ooh pristine, deftly moving
No rules to abide
Nothing left to hide

Ooh yeah you're taken
But you're take-take-taken for granted (hardly wanted)
Ooh yeah you'd break him
Yeah you'd break-break-break him for nothing (for nothing)
Ooh you're forsaken
You're left ache-ache-aching for loving (for loving)
Ooh yeah you're taken
But you're take-take-taken for granted (hardly wanted)
