

I didn't know where we would stand
My head in my hands
But I never wanna see your face again

Didn't know where we would be
We're nothing to see
But I know that I never wanna do it again

You just stand outside my window
And watch me bleed out
You're running again
Running scared
You're at it again
Running scared

In my head
You're always in my head
I should've kept my own part clean
In my head
You're always in my head
I couldn't stay astray
Stray

I don't know where we went wrong
Was it dead all along?
I just know that I never wanna feel that again

I don't know what I could say
To take it away
But I know that I never wanna hurt you again

You just stand outside my window
And hear me scream out
You're running again
Running scared
You're at it again
Running scared

In my head
You're always in my head
I should've kept my own part clean
In my head
You're always in my head
I couldn't stay astray
Stray
