

Fall In Love

Yemi Alade

Ooh yeah
Listen

It feels just like a dream
To sit down here and say
How it feels to fall in love
So deep and yet so real
It's like a fairy tale
To hear what I have to say
And how it seems to fall in love
So deep and yet so real

Fall in love
Fall in love
With someone I never thought
How could he make me fall
Fall in love
Fall so deep in love
In love
With someone I never thought
How could he make me fall
Fall in love
Fall so deep in love
I'm so in love
So in love
So in love

Ohhh love baby I'm on my knees
I just want you here with me
All night, all day
Don't you see, don't you see
There's a burning fire, there's a raging fire
And it's all, it's all for you
Baby I know that you and I meant to be
So I wrote this song for you

Fall in love
Fall in love
With someone I never thought
How could he make me fall
Fall in love
Fall so deep in love
In love
With someone I never thought
How could he make me fall
Fall in love
Fall so deep in love
In love
I'm so in love
So in love
So in love
So in love
So in love
I'm so in love
Cause I'm so in love
Love...
