

I Will Find You

Yendri

"And we all tripped off into the sunset
With a happy song on our lips"
"Don't I seem inordinately happy to you?"
"Well, I guess that makes me the outside-person"
I will find you
I will take you away
Into the darkness
Where there is no day
Don't you see
the evil is inside of me
Don't you feel it,
don't you know it yet
