

## Maya's Sister

Yendri

Maya had a sister  
She didnt know her name  
and where she came from  
and that they were the same  
they both didnt know  
that they had no mother  
cause they were not born  
they're not like the others  
We're both the same we're not like the others  
We're both the same we're not like the others  
We're both the same we're both the same  
We're not like the others we're not like the others  
Maya had a dream  
Not to be like her sister  
She wanted to feel  
The world outside  
But all that she had  
Were the signals of her body  
In high resolution  
that made her sad  
We're both the same  
Then she found out  
That she's like her sister  
She's not human  
Not flesh and bone  
Maya's sister  
Is not alive  
It's a machine  
Her skin is cold as ice  
Maya's sister  
Does not live  
But she has everything to give  
Maya's sister  
Is not alive  
It's a machine  
Her skin is cold as ice  
Maya's sister
