Cool that you think I'm cool
Cute that you think I'm cute
Sweet that you think I'm sweet
You're fun, that you found fun in me

Cool that you think I'm cool
Cute that you think I'm cute
Sweet that you think I'm sweet
You're fun, that you found fun in me

You always tell me I'm capable of something
If I say I don't have wings
You'd probably make those till the morning
Your crocheted wings are kinda heavy
But I feel the lightest ever in my life

You always say I'm good at anything
A blessing in your life
Boy, what you see in me
Cause I barely look in the mirror
Your eyes make me get rid of my blurry glasses
Made me brave enough to live without them
Made me see through all the beauty
I've always been passing by them
Flowers, nature, Joy and grateful feelings

You say "take on me
You should smile, baby
Your teeth are so pretty"

1-4-3
Shout you love me
You're right behind me
Again, I stepped on your feet

Cool that you think I'm cool
Cute that you think I'm cute
Sweet that you think I'm sweet
You're fun, that you found fun in me

The look of sheer delight on my face

It's not just some passing infatuation
You're one of my idea of bliss
Like summer, sunshine, the scent
And the warmth when you hug me tight
