

## November Song

Yerin Baek

I take picture of you  
Especially best of you  
Don't care if it's not really pretty  
Just record now this time to  
Share this feelings with you  
You took my time with you  
With my very first kiss  
Don't mind if it  
Ain't really romantic  
From my head to toe  
I feel the love from you  
Wanna sing this moment for us  
This love could make me alone  
But I know we'll be together  
Now or forever  
With you I'd float everywhere  
With you I'd  
I play my songs with you  
It's ordinary to us  
Don't care what would people  
Want from me  
Just record now this time to  
Remember this feelings with you  
You took care of me  
With your special cure  
Don't mind if it costs  
A lot of my heart  
From my finger to ear  
I feel the warm from you  
Wanna tell this moment for you  
This love could make me blue  
But I know we'll be together  
Now or forever  
With you I'd float everywhere  
With you I'd
