Dreamtime begins
Where every song is the perfect place
Words never spoken
Are the strongest resounding

Life force is meant for us
To remember the stars, the earth
Still we forget
So asleep in this dreamtime
Lost in this dreamtime day

Take me up into that freedom place and justify Electrify the senses sharpen than the soul intensify Nominate that we can break out take, take, take, take together Hesitate and you will dance on this earth to, to forever

You are the choice forever trying
Give you wings forever flying

You can see through this interactive vision streaming

You have the faith, so busy trying So let it go forever flying To the sky, to the earth, to the moon, to the sea To the sun, to the stars, to the dream you become

Nothing left to lose Nothing more to prove With wings of gold You'll fly away

Talk among the prophets
Give you something
Talk among the teachers
Tell you something
Talk among your one true self now
Forever, forever, forever, forever
