

Minus the Man

Yes

Evolution's tunnel from which there's no end
Mirror upon mirror, twist, turn and bend

Down the endless hallway of so many doors
Countless lives to choose and explore

Is the key to our survival post-human technology
Do we trust full immersion virtual reality

Vinge's 2030
The 6th Paradigm
When circuitry augments the mind

It's a double-edged sword
The Grand Singularity and A.I. autonomy

Building the superman
Building the superman

Minus the man

At any cost perpetuate the post-human lifespan

Down the endless hallway of so many mirrors
Reflecting no years, redirecting the tears

Through every door a new road upon which
To dream
To master each pathway
All, eventually

Will this bring us closer to destiny
Or are we withdrawing further into fantasy

Is the key to our survival post-human technology
Do we trust full immersion virtual reality

Vinge's 2030
The 6th Paradigm
When circuitry augments the mind

It's a double-edged sword
The Grand Singularity and A.I. autonomy

Building the superman
Building the superman

Minus the man

Will the survival equation command that it minus the man
