One Second Is Enough

Yes

With the ins and outs
And the whereabouts
In-between the scenes
Playing out our dreams
That we think occurred

Take it stage-by-stage
Turning page-by-page
From the open space
There's a warm embrace
Now we've come of age

One second is enough
In a blink of an eye
Happiness comes and goes
But we don't know why

In the afterglow
There's a lot we know
How our lives unfold
In what we behold
Inside ourselves

The glory days were beautiful
So young at heart, did energize
Move on from there to be so strong
Always belong

One second is enough
In a blink of an eye
Happiness comes and goes
But we don't know why

One second is enough
One second
One second
One second is enough
