

Teakbois

Yes

Ahhh Teakbois
Teakbois
Second Teakbois
Teakbois

Jump out this next world is gone overground
That sky is ecstasy dancin'
My child, my woman, my daughter, my son
Together planning to party

Just wait for me Out in the street
Teakbois in everywhere
Dancing with you
We're coming thru
Somehow we'll all be there

This time is surely Come once and for all
We've waited so now We're ready - come on!

Be quick be ready be sure and be smart
No need the energy wasted

I've dreamed of music That comes from the heart
As tho' the eagle has landed

Just wait for me
Out in the street
Teakbois is everywhere (Teakbois)

Dancing with you
We're coming thru
Everyone will be there

She smiles my mind Is just blown I can't stop
No time is better than now - this time!

(who this coming - bobby dread and the..)
(who this coming - bobby dread up early)

I wake up everyday Before the sun is coming up
(Bobby Dread and the kool running)
The fish to catch The sea to swim They say I gotta life To live
(Bobby Dread and the kool running)
My music is my only witness To my very soul
(Bobby Dread and the kool running)
So when you need me All you have to do is help me Lose control
(Bobby Dread and the kool running)
They say the world's a stage So let me play for you and you and you
(Bobby Dread and the kool running)
It's all I ever in my life really wanted To sing and do
(Bobby Dread and the kool running)
We form a group a simple name A secret harmony like
(Bobby Dread and the kool running)
We write our songs We symphonise Some people say they like us
(Bobby Dread and the kool running)

(Bobby Dread and the kool running)

(Bobby Dread and the kool running)

Sing it!
