

# The Last Time You Go

Yeti

This'll be the last time that you go  
You can come a-crying and a-crawling back no more  
Girl you've gone too far  
You showed me what you are  
This'll be the last time that you go

This'll be the last time that you cry  
This'll be the last time that you're ever gonna lie  
Now and for ever more  
I'm settling the score  
This'll be the last that you go

I'm not advocating  
Sweetheart assassinating  
But you been humiliating me far too long  
That's why you gonna be gone

This'll be the last time that you go  
You've trampled on my bleeding heart too many times before  
Say your last goodbyes and  
I'll see that you fly  
This'll be the last time that you go

I'm not advocating  
Girlfriend exterminating  
But you been humiliating me far too long  
That's why you gonna be gone

I'm gonna survive on my own this time  
I'm gonna be fine, just fine

This'll be the last that you go  
When you gonna listen baby?  
Only I will know  
Six feet underground, never to be found  
This'll be the last time that you go

This'll be the last time that you go  
This'll be the last time
