aphex twin flame

yeule

Float away, eat your prey
You look good in a blue beret
What are you thinking, little cat?
Do you think I could kill with a baseball bat?
Time and time again, I feel
Ever so slightly less than real
I talk to things that don't reply
I count the time like friends who die

A heartthrob crush that burns the skin
I fall in love with original sin
I cut so deep I see the flesh
But for you, I try to look my best
How much love have you stolen?
How do you fill my empty heart in?
The seas I swim to make you see
If you need a bone, I'd break my knee

My body, mine
Nobody, mine
I have one name
Aphex Twin Flame
Meteorite
Don't feel alright
I have one name
Aphex Twin Flame

Artificial
Feel so special
I have one name
Aphex Twin Flame
Artificial
Feel so special
I have one name
Aphex Twin Flame

For you, for you, Adieu
Come a little closer
Come right through
For you, for you, Adieu
Come a little closer
Come right through
My skin
