

Lullaby

yeule

I'm not gonna look after you too hard
Don't you spend your energy
Worrying about me
Worrying about you

Tell me where to touch you
Ask me to shush
I will learn what to do
You can't use me up
You can't use me up
You can't use me up

I'm not gonna tell you what to do
Only what not to
Don't move
You can just stay under this weight

And don't try make me laugh
You can just shut up
I will learn what to do
You can't use me up
You can't use me up
You can't use me up

You can't use me up
You can't use me up
I'm too full of love
