Mandy

yeule

It's a fucking mess
(You're the one who can't talk)
I just don't know what to say
(Go back to sleep)
You know what they always say
When you do all that kind of stuff
They always try and get back at you somehow
(You can always try)
I can't do anything right
(You can always be alive some other time)
(You don't have to live, right now)
It's time I did something right
(Don't have to wake up)
Why not?

Well, you can just lie here, with me
Just, me and you
And me and you, and me and you

And so, It's like I can't even trust
I can't even trust myself, so
I don't love you anymore (Mandy!)
Don't love you (Mandy!)
(Mandy!)
I said, I don't!

We'll make it go away
The pain can go away
They said it'd go away
