When shit wrong help me get it right
Like a flip phone you gettin' flipped tonight
Major joint game, MJG I need that pimp type
[?], come with me come get a pimp right
I get her Dolce Gabbana but I make her work for it like Rihanna
I just got a front end worth a hundred
She say she never seen this many hundreds
I beat that pussy just like a drummer come and lay the pipe good like a plumber
Like a newborn I get in her stomach and a new foreign I be lookin' for ya

Hoe come with me girl
Oh come with me girl
Come with me girl
Ima be callin' you tonight
Ima be stalkin' you tonight
Ima be all over your body
Im gon run you tonight girl
Ima be yeah yeah yeah yeah oh

Anytime you hit me up I give you what you need
Say you looking for the one baby come to me
He like we got back talk you act soft
If that mouth smart then that head hard
Can't walk me that back archy
I fuck that nigga till he back soft
Wait for it had to wait up on me
Ain't nobody gotta stay up on me
Need somebody who can take the way
Now he call me up just to lay up on me
He my type cause real niggas offend me
He know me took a date out to Beni's
Showed 'em real now he coppin' the Fendi
Yellin' fuck 'em we never been friendly
And I love it when you goin' down and start lookin' up
Say he wanna get me for a private show I'm like call the flights and just book it up
In your six fo' foggin' windows lingerie up under my trench coat
Call me up when your bitch stressin'
Push up on you like bench pressin'

Hoe come with me girl
Oh come with me girl
Come with me girl

Ima be callin' you tonight
Ima be stalkin' you tonight
Ima be all over your body
Im gon run you tonight girl
Ima be yeah yeah yeah yeah oh
