

# Never Enough

YFN Lucci

A whole lot on my brain  
Too much pressure and pain  
I waited all day and it ain't came  
Too much on me how I can't complain  
I ain't got a dollar to my name, huh  
I ain't got a dollar to my name  
I was walking in and out the bank  
I always chose money over fame  
I was trapping hours for them thangs  
I was tryna eat I knew I had some weight to gain, yeah  
Made it, jumped off the porch as a baby  
Swear we made it, we escaped it, I am not a Grady baby  
I'm related to the paper, I am not an eighty baby  
I'm a Georgia bastard baby, I don't mind gettin' you ate  
I don't mind gettin' you ate  
I got some young niggas hungry down for a plate  
I got some young niggas tryna line up a play  
I got some young niggas on my line every time if you play, yeah

Be patient my dawg, sometimes you just gotta wait 'til it come  
Making my play, I ain't praying for much  
Taking my chances, we're never too much, never too much  
Never give up, who would've thought it was never enough  
Who would've thought it was never enough  
Who would've thought it was never enough, hey hey yeah

Hey  
Yeah, yeah, hey, hey  
Yeah yeah yeah, yeah yeah, yeah  
Who would've thought it was never enough  
Who would've thought it was never enough  
Yeah, uh

Ok hustle to that bag  
Hustle, yeah I hustle like my dad  
I come from where them young niggas got gats  
I come from doing bad  
See I was once there out in the back  
I never seen my partner doing that  
Uh, tell me why the fuck you would do that?  
I'm used to spending bands, yeah I'm good at doing that  
Don't make me spend a ten just to get your ass whacked  
And we gon' spin again, man you know we coming back, uh, yeah  
Ayy, from a crumb to the riches, in the slum and the trenches  
Put a bomb on them bitches, where you from lil nigga? yeah  
Ayy where you from lil nigga, yeah  
Ayy they gon' make me let my young nigga get 'em, young nigga  
I been poppin since a young nigga  
Money old but I'm thuggin' like a young nigga  
Yeah, still thuggin' like a young nigga, yeah, yeah  
Okay we waited, look how long we waited  
Told me stop that drankin', too much medication  
They told me be patient, uh, I been sitting here thinkin'  
Bring me back his pinky, I just want some strainin'  
You wouldn't know what pain is, why the fuck you came here?  
Who the fuck you came with?  
Uh, when you know we stain shit but we never claim it

Uh, keep playing, we gon' make you famous, yeah, uh  
Be patient my dawg, be patient my dawg, be patient my dawg  
You know it's times you can't never give up  
And know too much time just ain't never enough  
Ain't never enough, ain't never enough  
Never give up, don't put your faith in what you cannot trust  
Don't you know diamonds was found in the mud  
Don't you know that I just climbed out the mud, yeah

Be patient my dawg, sometimes you just gotta wait 'til it come  
Making my play, I ain't praying for much  
Taking my chances, we're never too much, never too much  
Never give up, who would've thought it was never enough  
Who would've thought it was never enough  
Who would've thought it was never enough, hey hey yeah

Hey  
Yeah, yeah, hey, hey  
Yeah yeah yeah, yeah yeah, yeah  
Who would've thought it was never enough  
Who would've thought it was never enough  
Yeah, uh

Okay look, hustle to that bag  
Hustle, yeah I hustle like my dad  
I come from where them young niggas got gats  
Okay look, hustle to that bag  
Hustle, yeah I hustle like my dad  
I come from where them young niggas got gats  
You know, you just gotta be real  
You know some people ain't real, you know, it hard in the game  
But you just be yourself, and you gon', you gon' be good  
You made it through the street, you gon' make it through this
