

Oh, she bad

Why he let you out the house lookin' like that?
Body cold, like you left it in the snow
Go ahead and light this bitch, let 'em know, ayy
The pussy fat, mmm, that's a fact, mmm
When you toss that shit back, it feel like that
I'm gon' eat that shit up like it's a snack
Now, when you drop that shit, girl, make sure you-

Pick that shit up, then arch your back for me
Pick that shit up, throw that shit back on me (Mmm)
Pick that shit up, bounce that ass all on me
'Cause I be like a low-rider, like an old school Chevy
I'll let you go live, I'll let you go live, I'll let you go live
I'll let you go live, I'll let you go live, I'll let you go live
I'll let you go live, I'll let you go live, I'll let you go live
I'll let you go live, I'll let you go live, I'll let you go live

Damn, she goin' pogo on my stick
Baby is a pro, I must admit
Make me wanna take her down in public
Fuckin' in the car like it's nothing
Ah, baby, I got a headache
I love it when you look at that ass
Go ahead and take your time
Yeah, I'm here for all of it, I don't mind

Ayy, ayy, ayy, ayy
Pick it up, then drop it
All money fall and she poppin' off
Thottie who? She like, "Knock it off"
Bad bitch, she on Barbie doll
She's goin' live, she shakin' ass
Fake nigga wanna throw a bag
Confidence, she know she bad
Put the whole thing in her hashtag
Ayy, pick it up, drop it off, make it shake (What)
Bad bitch got her own, ooh, damn, you great
And that ass all natural, it match her waist
Baby head, baby fat with a baby face

Pick that shit up, then arch your back for me
Pick that shit up, throw that shit back on me (Mmm)
Pick that shit up, bounce that ass all on me
'Cause I be like a low-rider, like an old school Chevy
I'll let you go live, I'll let you go live, I'll let you go live
I'll let you go live, I'll let you go live, I'll let you go live
I'll let you go live, I'll let you go live, I'll let you go live
I'll let you go live, I'll let you go live, I'll let you go live
