

LOVE MAKE

YG

I got your legs spread all over the bed
Hands clenched in the sheets
Hair wild as hell
I know the only thing on your mind is sexin' me
Girl, I can feel your temperature rising
You should feel my nature too
Come on, it's gonna be a bumpy ride
Girl, let's do what we came to do
Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love
Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love (Come to daddy, baby)

When we make love, girl, I kiss you
Hit you from the back, you can't see me 'cause I'm in you
You got all that ass, I'ma smack and make it jiggle
Bitin' on your neck, you can't take it, say it tickle
Rounds are goin' triple, fuck me 'til my heart stop
Be careful with the head, baby, that's my soft spot
Brand new car, she gettin' fucked on a hard top (Hard top)
Hell, yeah, we made love
Hell, yeah, I beat it up
I'm the fiend, she the drug
That pussy good, somebody please call the plug
You know how I go when I get you and you all alone
Talk to you nice, huh, finesse you out that thong
Pullin' on your hair, I'm too fuckin' strong
Tequila got us actin' grown

I got your legs spread all over the bed
Hands clenched in the sheets
Hair wild as hell
I know the only thing on your mind is sexin' me
Girl, I can feel your temperature rising
You should feel my nature too
Come on, it's gonna be a bumpy ride
Girl, let's do what we came to do
Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love
Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love (Come to daddy baby)

Left stoke, left stroke, left stroke
Kiss you while I hit it missionary, that stroke
Tryna kill it like—, take your breath though
From the back, ayy, doggystyle, pet code
No next ho, forever want you in my life
You got that bomb-ass pussy, that shit wet and tight
When I'm in it, I play with the clit, set you right

When baby put that bonnet on, she give me neck at night
Baby, you my type and I want you
Fumblin' you, I won't do
Spit in your mouth, I'm gon' do, I'm on you
Lately, we've been fuckin' her old schools
Eat the booty like groceries from Whole Foods
Doin' everythin' I said I won't do, I'm on you

I got your legs spread all over the bed
Hands clenched in the sheets
Hair wild as hell
I know the only thing on your mind is sexin' me
Girl, I can feel your temperature rising
You should feel my nature too
Come on, it's gonna be a bumpy ride
Girl, let's do what we came to do
Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love
Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love (Come to daddy, baby)
