("ying yang in this thang" in the background at the beginning of each line)

Ying Yang in this thang, from the A-T-eeL Whistle while you twurk if you really real? in tha club smelling like some wood? in my neighborhood
Girls get crunk in the piz ball
If you sit down, get up off tha wall
Males only speak, if the females flirt
If you get crunk, whistle while you twurk

[Chorus: x4]
