

We got London on da track  
I'm in London, got my beat from London

Told my momma, if I got it, then she get it, my nigga  
Told my daddy, if I win it, then he win it, my nigga  
I came from nothin', now I'm ballin', Scottie Pippen, my nigga  
Had to leave some folks behind, 'cause they weren't really my niggas

Had to let that top down for a piece of mind  
Headshot a nigga, everything but take your minds  
Niggas out here throwin' shade peeping through the blinds  
We gettin' money every way, I'm talkin' different kinds

And I can't wait until that day I see my niggas shine  
What can I say, until today, I'm feelin' victimized  
They tryna lock my people up, they tryna take our lives  
You tryna rock with me or what, you gotta pick a side, yeah, yeah

I tell 'em, but nigga, we're ballin' now (My nigga, we ballin')  
Money keep falling now (Money keep falling)  
My ex keep calling now, oh  
I tell them, but nigga, we're ballin' now (My nigga, we ballin')  
Money get spent around  
That's what it's all about, uh

Told my momma, if I got it, then she get it, my nigga  
Told my daddy, if I win it, then he win it, my nigga  
I came from nothin', now I'm ballin', Scottie Pippen, my nigga  
Had to leave some folks behind, 'cause they weren't really my niggas

They call it dirty money when you get it from the dirt  
Remember, sunday mornings when we used to go to church  
Momma told me, "Stack your money, put your people first"  
I occupied all my niggas when they needed work

And I can't wait until that day I see my niggas shine  
What can I say, until today, I'm feelin' victimized  
They tryna lock my people up, they tryna take our lives  
You tryna rock with me or what, you gotta pick a side, yeah, yeah

I tell 'em, but nigga, we're ballin' now (My nigga, we ballin')  
Money keep falling now (Money keep falling)  
My ex keep calling now  
I tell them, but nigga, we're ballin' now (My nigga, we ballin')  
Money get spent around  
That's what it's all about, uh

It's like I thank my momma and I definitely thank God. But at the end of the day, I thank my fans. Because, if it wasn't for y'all, I wouldn't be here. So this is for...
