

# Everything You Do

YK Osiris

Hmm, yeah, yeah...  
(Fresh Ayre)

You've been around when I need someone talk to you  
Stayin' up late nights at the job too  
You still smiled when you knew that it was hard to  
And you ain't eat until you knew that we all full  
Lord knows, I ain't never let that burden wear you down  
So I'm goin' all all out tryna make you proud  
And you always pray a nigga lies, I'ma take 'em down  
Aimin' at their head, young king, finna take the crown  
Oh, all the things you brought me through  
Oh, I gotta tell the world 'bout

Everything you do  
You held it down for me  
You were around for me  
Everything you do  
You would ride for me  
You sacrificed for me  
Everything you do  
I gotta go harder  
Makin' these dollars to do the same for you  
And I promise, I'ma keep running for everything you do
