

# On My Mind

YK Osiris

I know you love me like you feel me  
You know what's the funny part about it?  
I'm just freestylin'  
I ain't, I ain't even, I'm pourin' my heart out  
I'm just tryna tell you how I feel about you 'cause you're, listen

Baby girl I know it's hard to see  
Other niggas steady lyin' so it's hard to be like  
I know that you afraid that I'ma hurt you  
But you steady on my mind so I can't curve you  
I can give it what you need, what you really want  
I can show what I know, what you wanna know?  
I can take you overseas, where you wanna go?  
I can let you slip away but I can't let you go

Love fades, baby girl what you wanna do?  
Ask me who this steady callin', I don't have a clue  
When them girls steady comin', I come straight to you  
I know that you feel the pain but you gon' make it through  
I know that you feel the pain girl, nah nah  
Baby I ain't playin' games girl, nah nah  
We in a whole 'nother lane girl, yeah yeah  
And I know you feel the same girl

I can't waste no time baby, you been on my line baby  
I been on your line baby, and you been on my mind  
I can't waste no time baby, you been on my line baby  
I been on your line baby, and you been on my mind
