

# Time Goes By

YK Osiris

Time goes by  
And makes me think about you in a different light  
And makes me regret things I said in our last fight  
I won't make that mistake twice  
If you come back in my life  
If you come back in my life, yeah  
Time goes by (Time goes by)  
And makes me think about you in a different light (Oh, yeah, a different light)  
'Cause the city feels so lonely when you're not by my side (By my side)  
I need you here at night  
Baby, come back in my life (Come back in my life)  
Baby, come back in my life (Life)

Time goes by  
Baby, I don't wanna question you or wonder why  
You been out here actin' like it's still just summertime  
I can give you what you need  
Baby, come make love to me  
I can't love you, ooh

Time goes by  
And makes me think about you in a different light  
And makes me regret things I said in our last fight  
I won't make that mistake twice  
If you come back in my life  
If you come back in my life, yeah  
Time goes by (Time goes by)  
And makes me think about you in a different light (Oh, yeah, a different light)  
'Cause the city feels so lonely when you're not by my side (By my side)  
I need you here at night  
Baby, come back in my life (Come back in my life)  
Baby, come back in my life (Life)

I don't wanna have you stressin', bae  
We can have a baby, any day  
Tell me what you mean when you say you done  
Tell me what you mean when you it's givin' toxic vibes  
When you gettin' all my time  
You keep switchin' sides  
I can't love you, ooh

Time goes by  
And makes me think about you in a different light  
And makes me regret things I said in our last fight  
I won't make that mistake twice  
If you come back in my life  
If you come back in my life, yeah
