

# Woozy

YK Osiris

Took a while for me to see that  
You the only one I ever needed  
Crazy thing, you the worst I ever treated  
Hit you a couple times, ain't gettin' no feedback  
I'll do better, better by you  
I'll do better, better by you

Street-educated nigga, you the only one that understood me  
Take a sip, imagine what we could be  
Gonna take forgiveness for us to see  
But you too much to shotgun in a two-seat  
Girl, stop playin', you my Lucy  
Know there ain't nobody better, you should choose me  
You know every time we touch, girl, it's ooweeee  
Name another one that always have you woozy  
Woozy, woozy, woozy

I'll do better, better by you  
I'll do better, better by you  
I'll do better, better by you  
I'll do better, better by you

Street-educated nigga, you the only one that understood me  
Take a sip, of magic what we could be  
Want to take forgiveness for a two seat  
But you too much to shotgun in a two-seat  
Girl, stop playin', you my Lucy  
If there ain't nobody better, you should choose me  
You know every time we touch, girl, it's ooweeee  
Name another one that always have you woozy  
Woozy, woozy, woozy
