

# Friday Night

Yll Limani

It's Friday night  
You're probably out  
Dancing to every break up song  
Pretending you're alright  
But you're not, you're not

You're probably thinking  
That I'm out with the guys  
But I'm home alone  
Thinking about us  
You're probably thinking  
That I'm out with the guys  
But I'm home alone  
On a Friday night

I lost you once  
Can't lose you twice  
I hope you know  
I won't give up  
I wanna call you  
But I know you won't pick up  
I wanna call you  
But I know you won't pick up

You're probably thinking  
That I'm out with the guys  
But I'm home alone  
Thinking about us  
You're probably thinking  
That I'm out with the guys  
But I'm home alone  
On a Friday night

You're my Friday night  
You're my Friday night  
You're my Friday night  
You're my Friday night  
You're my Friday night  
You're my Friday night  
You're my Friday night  
You're my Friday night

How I wish you were here  
By my side  
On a Friday night  
So lonely lonely  
Lonely lonely  
On a Friday night
