

Aurora Borealis

Ylvis

The rocket is ready. The rocket is big
The rocket is super. The rocket is great
This rocket is bigger than the ones we had before
They used to have one stage. This one has four

Stars are aligning just where they should
The conditions for a rocket launch has never been this good!
Can't wait to see the rocket flying into space
To get ionic samples and help the human race

Aurora Borealis
The tales of the northern light
Aurora Polaris
You're so green and blue and bright
Aurora Borealis
I wanna dive into your maze
Learn all the secrets, all the tricks
And today is the perfect day, cause

The rocket is ready. The rocket is big
The rocket is perfect. The rocket is cool
The rocket is super. The rocket is great
Let's get in the air. Oh my God, I can't wait (waaait)

Let me hear you say (Five)
Do you think it will fly?
Everybody say (Four)
I can't take it any more!
Are you ready on (Three)
You know what to (Two)
I will be the one (One) to push the button for
Lift off!

Look at all the data. Look at the results
Numbers, numbers, numbers
Exactly what we want

The rocket is perfect
The rocket is great
The rocket is perfect
The rocket is great

The rocket is perfect
