

She Told It On The Hill

Ylvis

She told it all that day
Absolutely everything
She told and told and told
In the castle on the hill
She used some strange new words
The kind and queen had never heard
She showed them many things
In the castle on the hill

No detail was untold (detail)
No stone was left unturned (unturned)
She shared and shared and shared (she shared)
In the castle on the hill

The king said: 'Did you ****?'
The princess said: 'Of course!'
'But you did not try the ****?'
'I'm afraid I did, my Lord!'
The king was puking, queen was crying, servants fainting, flowers dying
And the prince was feeling ill
When she told and told and told it
In the castle on the hill

Falala, going to a party
Falala, testing things
Ev'ry little detail, ev'ry little secret
Castle on the hill
