

## Work It

Ylvis

Yeah  
Let me see them asses on the floor  
This one's comin' at you B-style, Brovis  
Aahh  
East Coast party style  
bitches going crazy  
Booty shakin' never ceases to amaze me  
Girl, I wanna get you in to my bed  
But we ain't gonna sleep, we make love instead  
Your vagina is a self-cleansing muscular tract  
With over 50,000 nerve cells ready to act  
Infact 6,5 inches side to side and with a pH-value of 4,5  
When you become aroused blood flow increases  
To the vagina, labia and clitoris  
The inner walls of the vulva expanding  
Aswell as increasing vaginal lubrication  
Let me see you work it  
C'mon, let me work it  
I wanna se you work it, ccome on  
You gotta work it  
He means you're gonna have sex  
You gotta work it  
He's not literally talking 'bout working  
Oh baby  
You gotta work that body right  
You gotta work it  
Again he's talking 'bout sex  
You gotta work it  
We're not talking 'bout a traditional employment situation  
You gotta work that body right  
Back in my crib, sippin' on the bubbles  
Chillin' in my pool, doin' time with my models  
Bitches in the tube in oil and lube  
It's the D-51 with aluminum tubes  
We got five main nozzles in the front and the back  
Driven by a motherfuckin' p-p-power-pump-pack  
Got the non-slip surface and the stainless construction  
And the FX-2 Faucet for the maxinum suction  
But what about bacterias?  
How do I keep them from growing?  
That's what I'm talking about  
mah, man  
'Cause I've been worried 'bout the combination  
Of water and aluminum and very high temperatures  
But I guess I have to trust them, the jacuzzi factory  
They're professionals, God damn it  
They should know how to do it  
Let me hear you blow!  
You gotta blow it  
He's not referring to the sucking of the cock  
You gotta blow it  
Not a metaphor this time baby  
You gotta blow it  
He's talking about actually blowing bubbles into water  
You gotta pump it  
Now he's talking 'bout the pump  
You gotta squeeze it

He's referring to the valve that controls intensity  
You gotta stroke it  
Now I don't know what he's talking about  
You gotta stroke it tonight  
You gotta work it.
