

Bring Some Mo Out

YN Jay

Aight man I've been through so much though
I mean I used to, I went from sleeping in abandoned houses to sleeping in ma
nsions, you feel me?
Hey, This shit- alright, ok
Damn!

This shit legendary
I finally made it out the hood, this shit legendary
I moved my momma out the hood, this shit legendary
I just got a new bitch, she a secretary
Bitch I'm still in first place, you a secondary
You ran up with some petty shit, that's unnecessary
In the laboratory cooking with Professor Larry
I just bought my bitch a ring, I was never married
I been beating nigga's ass, I was never scary
I told my niggas I'mma make it, they ain't never hear me
You say that you was down to right but you was never with me
My uncle look 45 but he damn near 60
Ay, ay
Where the cemetery?
In Flint, someone just died at the cemetery
I finna start the year over like January
I spent a hundred something thousand in February
You had some money but you spent it, it was temporary
Yeah you had a little money but it's gone now
Remember I was a little boy, now I'm grown now
Probably making important calls if you see me with my phone out
How I do some good shit but I'm wrong now?
Catch the shit from above, bring the drone out
This bitch got on her stripper clothes, bring the pole out
Got some money on me today I brought the roll out
Shoot the engine out your car and let it roll out
I got some weed in that crib, that's my bowl house
Five thousand ain't shit, bring some more out
Ten thousand ain't shit, bring some more out
Twenty thousand ain't shit, bring some more out
Fifty thousand ain't shit, bring some more out
A hundred thousand ain't shit, bring some more out

I told a bitch that she need some lotion, she got ashy legs
You gotta take care of your mind, that's what my daddy said
I got the old school green, but the caddy red
I'm in the booth spittin' fire, I got a dragon tail
I got the roof chopped out the top, this a panoramic
Hit him with a boom! Make that nigga do a flip, that's an acrobatic
I just had to cuss my bitch out, she was acting rachet
Bitch on the role tryna play on a movie, why you acting dramatic?
My Glock fire continuously, fully automatic
Shoot my shot facing the other way, I be ballin' backwards
Bitch can't go through my phone, she just want my password
Do you wanna talk before you die? You better say your last words
I ain't gotta use a thirty round, I'll use the standard
Dawg got put out his granny crib cause he ain't have no manners
You the type to fuck any bitch, you ain't got no standards
I just knocked down a bitch wall but I ain't got no hammer
