Bitch said she 'bout to buy a car, don't forget the house
I'll fuck you good on the bed, don't forget the couch
Music buzz the East, West and North, don't forget the South
I know your head now, don't forget the mouth
Fell asleep off a deuce of trees, I was givin' [?]
I can get you gone, snap my finger, you missin' now
Had to slow down on Patron, I be trippin' out
Trip been gone, I'm still here, gotta live it out
Bitch tried to stay, it's time to go, gotta kick her out
Beatin' bitches down after my shows, gotta dick 'em out
When I'm done fuckin', she can't walk, she be limpin' out
Coochie Land full of double D's, with their titties out
If your daddy told on somebody, you a Mickey Mouse
Freak bitch got beautiful head, give me pretty mouth
I can't lie, all I get is love when they see me out
Oh, you think she got some good? Nah, I don't think she do
Oh, you think she got some good coochie? Yeah I gotta try it
[?] on Jurassic Park, yeah I'm probably flying
If I told you I was gettin' high
When I told you I was gettin' high, I was probably flyin'
When I told my bitch that I love her, I was probably lyin'
When I told you I was in the kitchen, it was really science
When I told you I was, it was really flying
Seeing bro get shot in his chest, he was really dying
Seeing bro get shot in, damn, you alright bro?
Bro just pulled up in a, left a dookie stain
Watch this next trophy that I drop, it's a coochie chain
I can make your bitch do some shit, feel like Boosie mane
Nigga said he up on a thousand, it was really bluffin'
Nigga tried to flash a couple thousand, it was really nothin'
I did it for the city, Coochie Land, it was really jumpin'
But Call of Duty what it looked like, they was really bussin'
Bitch tried to play like she was shy, she was really fuckin'
Bitch tried to tell her friends we fucked, she was really suckin'
Probably seen a nigga lookin' crazy, if you see me clutchin'
Fuck a surfboard, I caught my wave, if you see me brushin'
Thinkin' why the fuck you lookin' at me, if you see me muggin'
